

Attention Basic Skills Skaters!

Are you planning to test or compete for the first time between July 2021 and July 2022?

If the answer is yes, the introductory membership category in the Skating Club of Brewster is for you! From the United States Figure Skating (USFS) website “A one year ‘introductory’ club membership category is suggested to help families make the transition to club membership. This way, when they are ready to test their pre-preliminary moves and free skating, they will be eligible.”

The fee is \$56, the 2021-2022 skating season starts on July 1. Please go to our website at www.skatebrewster.com and download an electronic version of the SC of Brewster membership applications.

USFS membership is required in order to compete and test, which allows a skater to advance their skating level, and which determines a skater’s competition level. The Introductory Membership is only available through a skating club. While individual (not through a skating club) USFS memberships are available, the cost of an Individual Membership is much higher, paid directly to USFS, being part of the Skating Club of Brewster offers a significant discount on membership as well as discounted rates for taking USFS tests sponsored by the Skating Club of Brewster. As soon as you sign up you will be assigned a USFS number and you will start receiving a monthly Skating Magazine from USFS, as well as enjoy all the benefits of full club membership.

Applications are due by June 20th! You can sign up anytime during the skating season, however **there is no prorated fee** for any of the membership levels, and there may be a delay in processing your membership. Please do not wait until the due date of a competition or test application to send your club application form in, if you do it may not be processed in time for your competition and you will be disqualified from that competition or test.

If you have any questions or concerns please feel free to contact our Membership Chair or any Club officer. A list of club officers can be found on the skating club website.
